***Strong increase in revenues and operating results.***

➤ **RESULTS**

**Versia's revenues for 2004** showed a **35% increase** compared to the same period last year, reaching **€ 514,5 million**. Part of this increase is due to changes in the consolidation perimeter. Not taking into account these changes, the revenues increase would have been 10,4%.

<b>REVENUES</b>	<b>514,5</b>	<b>381,0</b>	<b>35,0%</b>

<b><i>EBIT Margin</i></b>	<b><i>9,6%</i></b>	<b><i>11,9%</i></b>	

The increase is mainly sustained by the **Parking Division with a 22,8%** increase and the **Transport division (32,8%)** basically due to the beginning of operations for the Barcelona Tram.

Regarding the changes in the consolidation perimeter, we have to point out the new incorporation of the **Logistics Activity** which brings forward **€ 109 million** in revenues. On the other hand, and also in this period, the Mexican subsidiary of Urban Fixtures has been integrated following the equity method and has left the global consolidation.

Without this last change, **revenues from Urban Fixtures would have increased 17,8%**.

➤ **PROFITABILITY**

**EBITDA rose** 13,8% and is at **€ 91,8 million**. Margin decrease is mainly due to the consolidation effect of the Logistics activity, that being of low capital strength has lower operating margins.

**EBIT reaches € 49,6 million**, which represents a 9,7% increase compared to the same period last year.

➤ **BACKLOG AND CAPEX**

	Dec-04	Dec-03	Chg.%

**Backlog has significantly improved during this period (341,2%) reaching € 193,7 million**. This improvement is mainly due to the Logistics activity, which brings forward a € 146,5 million worth backlog. **Investments** during this period **increased 40,2%** and amounted to € 90,6 million. **Revenues** in the cement area amounted to **€ 881,5 million, which represents a 1,8% increase** compared to the same period of last year. This growth has been affected by higher sales in those geographical areas with lower prices, which results in a lower average price per tonne.

**The Domestic activity** which represents a 77,6% of sales, continues showing high increase rates and grows 3,5% compared to the same period last year.

On the other hand, **International sales** amount to € 197,8 million, with a **3,4% decrease** mainly due to the 8% depreciation of the dollar against the Euro.
